

MSC Closure

Mass Splice Closure

FOCUS-MSC-AC is an environmentally sealed single-ended optical closure (IEC 529, IP68) for fibre management system that provides the function of mass splicing in the outside plants.

It accommodates up to 8 hinged FOCUS Mass Splice Trays (MST) and reaches the maximum capacity of 768 splices both with fusion splice holders or the ANT holders (up to 12 splices in each holder).

DIMENSIONS		CAPACITY	
Height	770	Mass Splice Trays	8
Diameter	247	Fibres	768
Diameter (with clamp)	285		

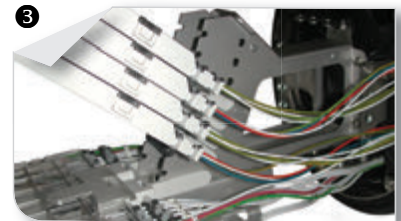

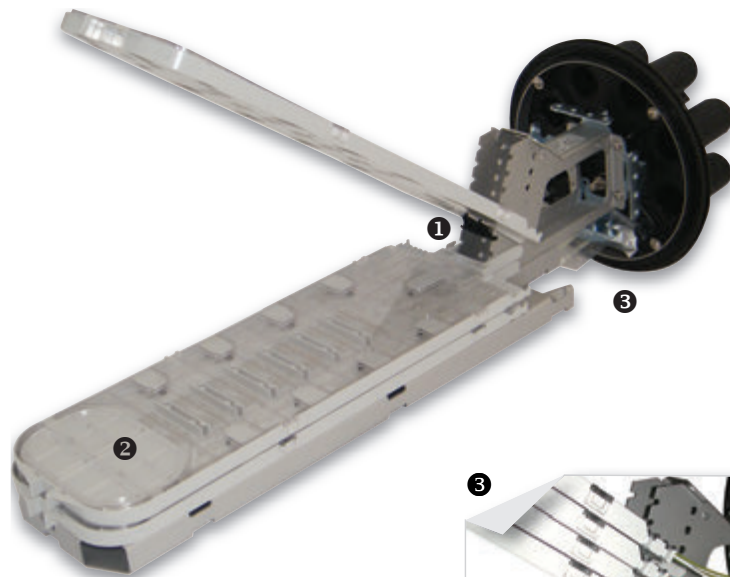

CABLE ENTRANCES	QTY	UNIT	DIMENSIONS
Oval port	1	mm	88 x 41
Round ports	6		Ø 32
